PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

Rovno Storage Area Klevan is located (Figure 1) in a wooded area 4 kilometers (km) northeast of Klevan and 19 km northwest of Rovno. This military storage installation covers approximately 250 acres, is double secured, and is served by both road and rail.

Associated with the installation (Figures 2 and 3) are six barracks, a multistory administration building, nine administration buildings, two special handling buildings, 43 storage

buildings, and seven support buildings. An athletic track is the only training facility in the installation.

The installation is active and no change has been noted; however, improvement in the quality of photography shows buildings that are not new but could not be identified earlier.

The installation was covered by KEY-  
HOLE missions between [REDACTED]

## DESCRIPTION OF INSTALLATION

**Railroad Service**

The installation is served by a single-track rail spur.

**Road Service**

Internal road service is good, with an all-weather road network; however, the installation is served by poor, unimproved roads.

**Administrative and Troop Housing Area**

Area D contains six barracks, one multistory administration building, six administration

buildings, four storage buildings, and five support buildings.

**General Storage Area**

Area E contains 39 storage buildings, three administration buildings, and two support buildings.

**Other Buildings**

Two special handling buildings used for loading, unloading and handling material are located in Area H.

**Athletic Field**

Area K is an athletic track.
